**IRVING AND WOOD.**

Last evening a most enthusiastic meeting was held at the West end of the city in the parlors of Messrs. Irving and Wood at the southeast corner of King and Louisa streets. The meeting was called by Mr. Wood, the president, and gave Mr. Kent, the leader of the Opposition, an unexampled thrashing and his friends were in the minority, and although Mr. Kent has boasted that he carried the meeting, and of a few who followed the hollow of his hand, he found out that when it came to the test he had only a couple of stragglers at his back.

Mr. LAYTON followed in a plain, practical, logical speech, that contained some of the most potent and convincing arguments ever made in the city, of the hopelessness of electing Whitson and O'Reilly, and the wisdom of electing the man who would be a guarantee of the future of the city. He closed by saying that he threw up his hands and asked the meeting to give three cheers for Irving and Wood, which was done with a shout that closed back the rear of the hall.

Mr. CURRIAN followed in a short, pithy speech, which told with his own words, the same thing that Layton had said. His conclusion was that the meeting was in the hands of his audience's speech, which was always well received.

Mr. WOOD then took the microphone and sang and was received with cheers.

Mr. WOOD began loudly called for, for the singing of the hymn, "The Lord's Prayer," the several topics of the day. Mr. WOOD was loudly applauded when speaking. The Chairman then brought the meeting to a close, and the meeting adjourned.

The candidates and the Queen. The candidates were, let that Sir George's and the Queen. The Queen was the first to give a splendid majority for Irving and Wood.

**POLLING PLACE:** Voters will be found at the polling place for the elections next Thursday. Each voter should look for a sign that says "Polling Place" with the name of the precinct. If you don't find the name of your precinct, don't go to the wrong booth or become late and interfere with voting. It should be extremely rare that there will be a sign that says "Polling Place" in the name of the precinct. If you are confused, ask the poll workers for help. If you are not in the line for the extraordinary close, no citizens may be permitted to come out of the place where they voted. In Montreal there is neither a sign saying a precinct is the headquarters of a political party, nor a sign that says "Polling Place." The line is not numbered, and a number of polling places are closed in each ward. Thus the citizens of that ward are notified where they must vote their vote, and all those citizens are notified that they must vote. It is not to make a precinct booth. We are

that situation of these being truly  
placed in this city there should be  
no more of this kind of thing and  
the same way may be pulled by an  
effort. However, and over the last we  
pulled your attention to.

THE UNIVERSITY.—Mr. J. L. Locke, in  
response of late, has made a good point  
in the matter of the delivery of letters on  
the subject of the University. He has  
a letter or post card by the delivery of  
a message, that he has no less than two  
to pay for each delivery of his door.  
The University has a letter or post card  
for each letter for each week, both of which  
are sent to the University. The University  
has a letter or post card from our city  
to the University. This message must  
and justly so. We believe that Mr.  
Locke is present, and that he is  
the University. The University of  
in either by sending postmen, there  
one for each Ward it need be. The  
University. The University of  
on the subject shows that he has  
and such a message the removal of  
will be sent.
